Dear Nobles:

Did you ever see a large ocean liner come into port—and did you take note of the tugs and the way they warped the large ship up to the dock? Well, what you and I do over at the Temple is easily comparable to what the tugs do. Each of us, though very minor in the work we accomplish, are but part of a mighty force that is carrying Medinah to greater heights in Shrinedom. Some of us carry on the mechanics of the institution, others make possible the "spirit of doing things," but all together we are forging an unyielding band of iron around our Treasure Chest of Friendship.

To do this in harmony is a true achievement and your officers are persistent and consistent in their efforts to build stronger and stronger. Every Medinah Noble should be a factor in every thing we do and every Noble should feel that what is done is being done for him. Remember, every member is a tug who is making a contribution to the successful voyage of a great Temple—Medinah.

Our next big event is the Ceremonial for April 28th and your being there will help and give us "a leg up" and it is an even bet you'll have a good time.

Your attention is directed to the inside pages of this announcement wherein we outline our coming Pilgrimage to the Imperial Session of the A.A.O.N.M.S. at Baltimore in June. You are invited to go with us for a week's period of enjoyment and a worth while vacation. The cost is very low.

And now, heave a line to that friend of yours you want as a fellow member in Medinah and bring him into port. We'll be there at the gang plank to make him welcome.

Yours in the Faith,

J. G. Rowley

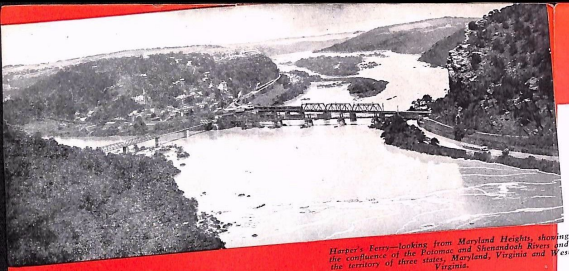
THE GREAT PILGRIMAGE IN JUNE

TO THE 65th IMPERIAL SESSION OF THE A. A. O. N. M. S.
CHICAGO TO BALTIMORE



Harper's Ferry—looking from Maryland Heights, showing the confluence of the Potomac and Shenandoah Rivers and the territory of three states, Maryland, Virginia and West Virginia.

Within fifteen miles of the city of Baltimore—accessible by trolley or motor coach, is Bay Shore Park—salt water bathing in Chesapeake Bay.

Our motor coaches will be driven right onto the ferries in Jersey City which will take us up the Hudson River via what is called the "Open Air" route and thence into New York City at 23rd street. This trip up the Hudson gives you that breath-taking view of the towering Hudson River skyline, a view that will thrill even the most sophisticated.

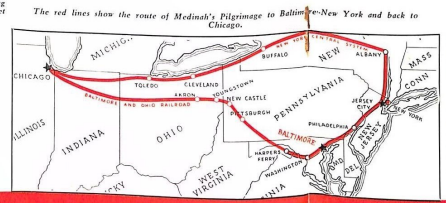
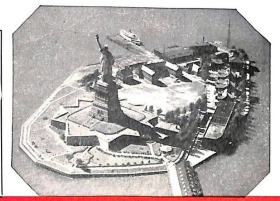
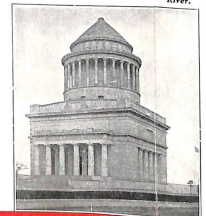
Perhaps Baltimore's first claim to historic immortality is Fort McHenry, birthplace of our National Anthem, "The Star Spangled Banner." Here Francis Scott Key watched "by the dawn's early light" his Country's flag still proudly flying over the ramparts. Inspired by this sight, the poet penned the words on the back of an old letter.



The red lines show the route of Medinah's Pilgrimage to Baltimore-New York and back to Chicago.



The Statue of Liberty in New York Harbor.



The scene upon the Hudson River is one of considerable interest. There is a certain fascination in watching the never ceasing panorama of steamships, freighters, tugs and ferry boats and huge ocean liners and battleships. Vessels flying the flags of all nations and strange-looking craft from far corners of the earth are among the sights in the magnificent harbor that makes New York our leading sea-port.

ADMISSION — YOUR 1939 CARD ONLY

Twenty-six years of honest service and then time and the elements began to show their work and along in the middle of 1938 an inspection of our Mosque showed up Old Man Deterioration had done a big job and in rather a jolting manner. The iron construction within those two domes was corroded and rusted away to a degree that, as one inspector said, "I am surprised that the last wind we had didn't send those domes somewhere into the next block."

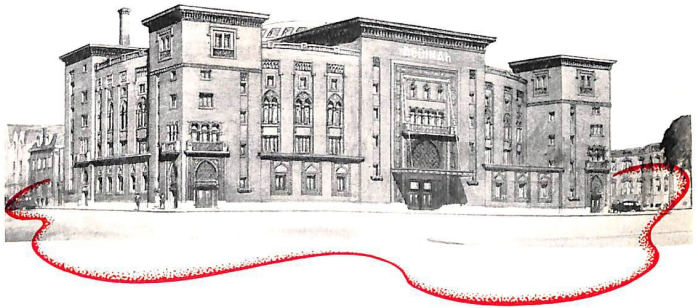
Then the Potentate got into action. He named a Building Committee of Illustrious Past Potentates E. Edwin Mills and Harry J. Gardiner and Noble John E. Wagner. Subsequently, after the death of Noble Wagner, Noble Harry J. Keator was placed on the Committee. These men, interested in the Temple and with no axe to grind, started in a most efficient way.

A survey of what was to be done, who was to do it, when to do it and at what cost, was made. Then the Potentate told the Nobility the what and the why and invited any Noble interested to contact the Committee. Every one interested was given an opportunity to bid upon that for which they could qualify. The work was let and the rebuilding began.

E. Edwin Mills, P.P.

Harry J. Gardiner, P.P.

Harry F. Keator



And here is a partial list of what has been done and is being done to the Temple:—The two domes have been taken off and rebuilt, a new roof has been completed. The fire escapes and steps to the stage entrances both North and South sides, have been replaced and painted. The exterior trim has all been repainted and there are two added rooms in the towers and toilet facilities installed therein so those on the top floors need not go down to the first floor.
